Mac OS/Standalone Installation

Initial Installation:

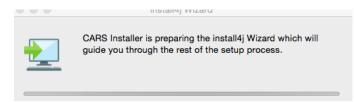

1. You will find the installation file at the CARS website under "<u>The System</u>" -> Mac OS.

2. Double-click on the CARS download file (.dmg); continue through the security messages, then a MAC installation dialogue box will open. Right-click on the download icon, and select "Open".

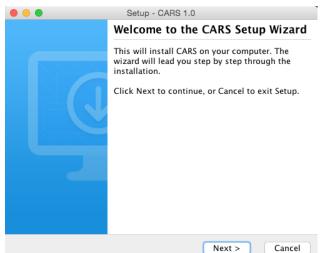

3. Another security message will appear. Click "Open".

4. The CARS installer wizard will then begin its setup. **Note:** if you have previously installed CARS, this process will update and overwrite the older version of CARS

5. Once the setup has finished, a window will appear. Click "Next" to continue with the installation.

6. The default folder where CARS will be installed is in /Applications

• •	Setup - CARS 20170127_131900
Select Destination Where should C	ARS be installed?
Select the folde Next.	r where you would like CARS to be installed, then click
Destination di	rectory
/Application:	s Browse
Required disk s Free disk space	pace: 427 MB : 905,479 MB
install4j	< Back Next > Cancel

7. When the setup has finished, click the "Finish button in the bottom right of the dialogue box. There is no need to restart your computer; however, CARS will not start automatically. You will need to go into the folder where it is stored and click to open it, or access it from the start menu on the desktop by searching "CARS".

8. Below is an example of what CARS would look like within the default /*Applications* folder:
