

Initial Installation:

1. You will find the installation file at the CARS website under "[The System](#)" -> Windows OS.
2. Select the CARS download file (.exe); an installation box will open. Click the "NEXT" button.
3. The default folder where CARS will be installed is C:\CARS. If you wish to save CARS in the default folder, click "NEXT".

Note: if you have previously installed CARS, this process will update and overwrite the older version of CARS

4. Click "NEXT" to create a CARS start menu item.

5. When the setup has finished, click "FINISH".
