Windows OS Standalone

Important: CARS-5 and later versions are not backwards-compatible with CARS 1.05 and older versions. You will not be able to restore data from CARS 1.05 (or earlier) to CARS-5. If you are updating to CARS-5 from CARS 1.05 (or earlier), generate and save all reports you wish to keep before installing CARS-5.

1. If you have not done so, register for an account on the CARS website.

2. Log in to your website account.

3. Go to the Download CARS page, select Access CARS for Windows OS, then select Download CARS for Windows.

4. Locate the CARS installation file. Right click on the icon and select **Open**.

5. The CARS Installer will begin preparing the installation. Once the installation is prepared, select **Next.**

6. CARS will be installed in the C:\CARS folder by default. To save CARS in the default folder, select **Next**. To save CARS to a different directory, select **Browse...**, then choose the location to install CARS.
